MEMORANDUM FOR: Colonel White

1. The accompanying memorandum to the DCI in staff study form was prepared by Jim Reber to recommend that the basic Agency Regulations on the organization of the DCI and the DD/I organizations be supplied to the head of each IAC agency.

2. I had already reported to you that the Director of Security goes along with Mr. Reber's proposal, with the exception that he would like to stipulate that only "senior planners" on the staff of any particular IAC agency be shown these materials. The reasoning behind this recommendation seems to be that, through attendance at the quarterly Orientation program and the weekly Indoctrination meetings, a large number of people in IAC agencies already know about CIA's organization. However, it is my feeling that if so many persons in IAC agencies already know about the CIA organizational structure, the limitation proposed by Colonel Edwards would not seem to be altogether necessary; therefore I recommend that you sign to indicate your concurrence in Mr. Reber's recommendation.

3. Colonel Edwards' comments were forwarded to this Office two weeks ago. In the meantime, however, Mr. Reber's paper was called for by the Office of the DD/I and was returned to us just yesterday.
